Full name: Kazem Abusitta

Country: United Arab Emirates

Email: kazemzidane@gmail.com

Phone number: 00971562880635

Websites I made:
www.kalamatkat.com
mortalsongs.netlify.app

My github:
https://www.github.com/thendbend
https://www.github.com/lovevice

Strengths:
Advanced C programming and debugging knowledge with VSCODE on Linux/MacOS.

Intermediate C++ programming knowledge with Visual Studio Community on Windows.

Intermediate HTML5/Javascript/CSS knowledge.

Familiar with Python and Assembly.

Compilers or Text Editors I use: Visual Studio Community, Visual Studio Code, (VIM if necessary).

Can work extra hours and meet deadlines.

Fun, mysterious and confident enough to interact with others and work as a team

Education:
Currently a student in 42 Abudhabi campus

United Arab Emirates, GEMS Cambridge high school O levels.

Youtube and online sources.

Overall:
2 years of C programming experience.

1 year of C++ programming experience

1 year of HTML/CSS/JAVASCRIPT experience.

I made a Cyber Network Cafe Windows application using C/C++ winapi library.

If you are interested in seeing videos of the websites and the application I made
